

Estimated time needed: **10** minutes

Objective for Exercise:

- Share your notebook from Watson Studio

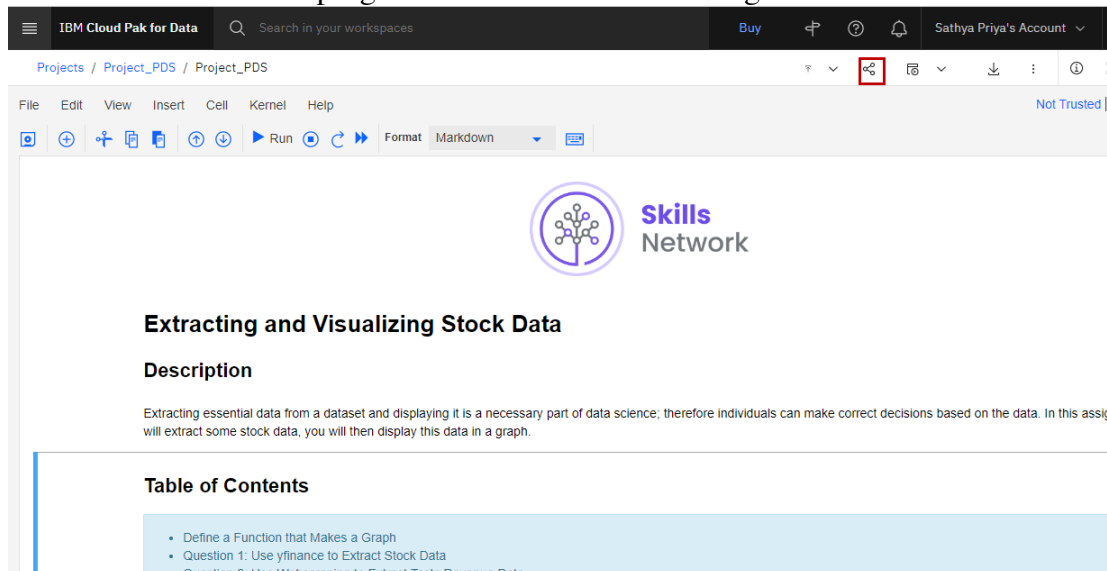

### Step 1: Share your notebook from Watson Studio:

Once you complete your notebook you will have to save and share it to be marked.

To save the notebook, click on the save icon on the top left.

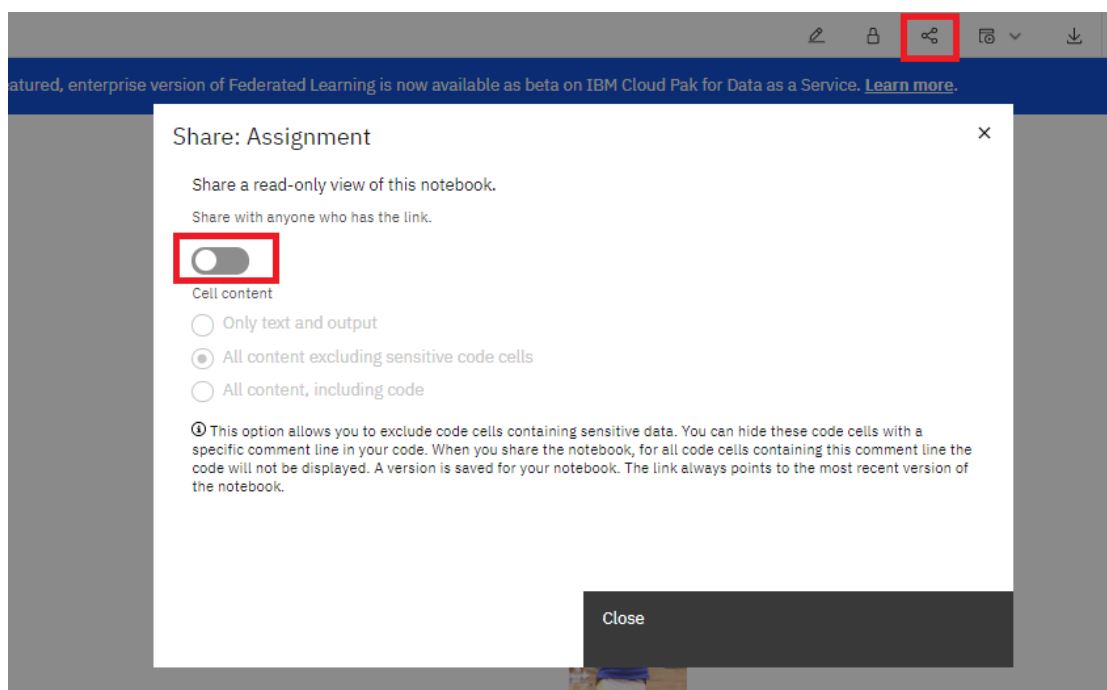

The screenshot displays the IBM Cloud Pak for Data workspace. At the top, there's a navigation bar with 'IBM Cloud Pak for Data', a search bar, and user information 'Sathya Priya's Account'. Below this, the breadcrumb 'Projects / Project\_PDS / Project\_PDS' is visible. The main interface has a menu bar (File, Edit, View, Insert, Cell, Kernel, Help) and a toolbar with icons for saving, undo, redo, and running. The notebook content is titled 'Extracting and Visualizing Stock Data' and includes a 'Description' section and a 'Table of Contents' section. The 'Table of Contents' lists three items: 'Define a Function that Makes a Graph', 'Question 1: Use yfinance to Extract Stock Data', and 'Question 2: Use Matplotlib to Extract Tesla Revenue Data'.

Select the icon on the top right a marked in red in the image below.

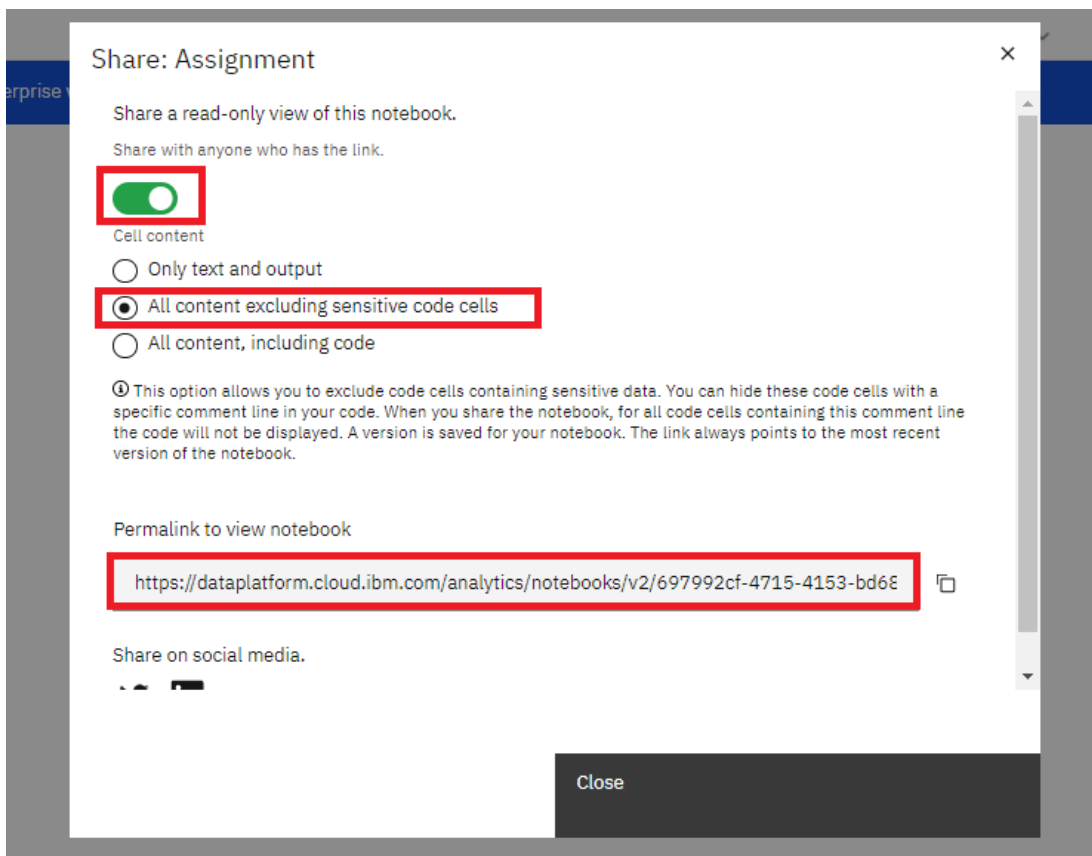

The screenshot shows the IBM Cloud Pak for Data interface. At the top, there is a navigation bar with 'IBM Cloud Pak for Data', a search bar, and user information 'Sathya Priya's Account'. Below this is a breadcrumb trail: 'Projects / Project\_PDS / Project\_PDS'. The main content area displays a notebook titled 'Extracting and Visualizing Stock Data' with a 'Skills Network' logo. The notebook has a 'Description' section and a 'Table of Contents' section. A red box highlights a share icon in the top right corner of the notebook interface.

A dialogue box should open, enable the option marked in red in the image below.

The screenshot shows a 'Share: Assignment' dialog box. The dialog box has a title bar with a close button. The main content area contains the text 'Share a read-only view of this notebook.' and 'Share with anyone who has the link.' Below this is a toggle switch labeled 'Cell content', which is currently turned on. There are three radio button options: 'Only text and output', 'All content excluding sensitive code cells' (which is selected), and 'All content, including code'. A note at the bottom explains that the selected option allows excluding sensitive data. A 'Close' button is at the bottom right. A red box highlights the 'Cell content' toggle switch.

Once the option is enabled select the option all content excluding sensitive code cells and you can then share the notebook by copying the URL in the **Permanent link to view notebook**, as shown in the following image:

Paste the URL in a new browser window and check if the notebook is rendered as intended before sharing it for review with your peers.
